

la galería de comercio
open call

Compilation of the Bastard Archive
a project by Fabiola Iza

1. Any interested person is invited to participate in this open call by sharing an **unrealised artistic project** (an artwork, exhibition, research project, publication, etc.) which has been **rejected by a public or private institution**.
2. There are no restrictions regarding artistic discipline or the length of the project's document. It is possible to send more than one project per author.
3. Artists, curators, cultural managers, research fellows, students and any interested person may participate.
4. The projects must be sent to the e-mail address lagaleriadecomercio@gmail.com in the format they were originally submitted. Please write "Bastard Archive" as subject.
5. If any project or dossier does not exist in a digital version, please deliver them at Casa del Lago (Bosque de Chapultepec, right next to Mexico's City zoo) att'n to Fabiola Iza. Please **DO NOT** send artworks nor artist portfolios.
6. The received projects will be printed and available for public consult in an event organised by La Galería de Comercio (corner of Martí & Comercio St., Col. Escandón).
7. This open call reaches its end on **Sunday, November 20th**.

The *Compilation of the Bastard Archive* aims to generate art consumption through the dispersion of ideas and experiences, that is, through the material inexistence of the submitted projects. This exercise on visibility seeks to echo the political, economic, and social relations of the Mexican arts system.
